Welcome to the money desk

Karibu kwenye kitengo cha fedha

Everything this business is owed passes through your screen, and no cargo leaves the warehouse until you say it has been paid for.

Kila deni la kampuni hii linapita kwenye skrini yako, na hakuna mzigo unaotoka ghalani hadi useme umelipiwa.

Two things only you can do

Mambo mawili unayoweza wewe pekee

AUTHORITY ONE MAMLAKA YA KWANZA

Say that money has arrived

Kuthibitisha kuwa pesa imefika

Customer Care can take a customer's word and upload their proof. They cannot mark it received. Until Finance agrees, the money does not exist as far as this system is concerned.

Huduma kwa Wateja wanaweza kupokea maelezo ya mteja na kupakia ushahidi wake. Hawawezi kuthibitisha kuwa imepokelewa. Hadi Fedha wakubali, pesa hiyo haipo kwa mujibu wa mfumo huu.

AUTHORITY TWO MAMLAKA YA PILI

Free cargo from the warehouse

Kuruhusu mzigo kutoka ghalani

The counter cannot hand over boxes without a pickup note, and only Finance can issue one. When you issue it, cargo moves. When you do not, it stays.

Kaunta haiwezi kukabidhi mizigo bila hati ya kuchukua, na ni Fedha pekee wanaoweza kuitoa. Ukiitoa, mzigo unatoka. Usipoitoa, unabaki.

TIP KIDOKEZO

Everything else on your menu exists to explain a number after somebody asks about it.

Accounts, the ledger, expenses and reports are not daily work — they are where you go when the CEO asks where a figure came from.

Kila kitu kingine kwenye menyu yako kipo ili kueleza takwimu baada ya mtu kuuliza. Akaunti, daftari, matumizi na ripoti si kazi ya kila siku — ni pale unapoenda Mkurugenzi anapouliza takwimu imetoka wapi.

NEVER DO THIS USIFANYE HIVI

Never share this account. It is the only one in the company that can say money arrived, and every verification carries your name permanently.

Usishirikishe akaunti hii kamwe. Ndiyo pekee kampuni nzima inayoweza kuthibitisha pesa imefika, na kila uthibitisho hubeba jina lako milele.

/app/finance/verify

Claims Customer Care has collected from customers. Open the claim, check the proof against the account the money should have landed in, then Verify or Reject. Rejecting sends it back with your reason; it does not delete anything.

Madai ya Huduma kwa Wateja kuwa wamekusanya kutoka kwa wateja. Fungua dai, kagua ushahidi dhidi ya akaunti pesa ilipopaswa kuingia, kisha Thibitisha au Kataa. Kukataa kunarudisha dai pamoja na sababu yako; hakuna kinachofutwa.

1 The claimed amount Kiasi kinachodaiwa

What the customer says they sent.

Kiasi mteja anachosema alituma.

2 Into which account Kwenye akaunti gani

The account the money should have landed in. This is the field that matters most.

Akaunti pesa ilipopaswa kuingia. Hii ndiyo sehemu muhimu zaidi.

3 The proof Ushahidi

The screenshot or slip the customer sent. Open it — do not verify from the amount alone.

Picha au risiti mteja aliyotuma. Ifungue — usithibitishe kwa kuangalia kiasi pekee.

NEVER DO THIS USIFANYE HIVI

Match the proof to the account. A screenshot showing the right figure paid into the wrong account is the most common way money goes missing.

Linganisha ushahidi na akaunti. Picha inayoonyesha kiasi sahihi lakini kilipwa akaunti isiyo sahihi ndiyo njia ya kawaida pesa inavyopotea.

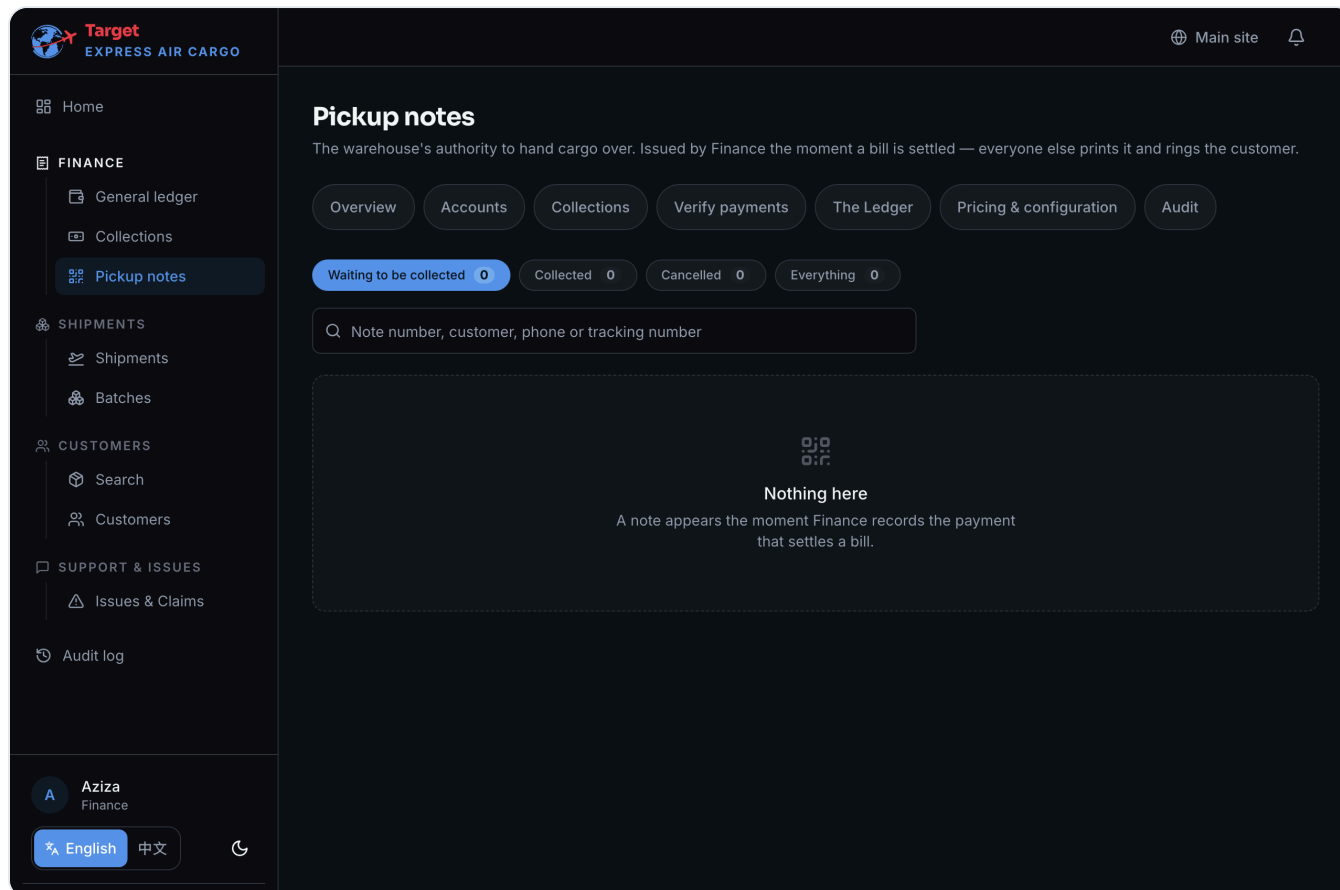

Pickup notes – the most important thing you do

Hati za kuchukua – kazi yako muhimu zaidi

/app/finance/pickup-notes

Until the note exists, the counter physically cannot release the boxes — it scans the carton and the screen refuses. Issue it the moment an invoice settles.

Hadi hati itakapokuwepo, kaunta haiwezi kabisa kukabidhi mizigo — inaskani boksi na skrini inakataa. Itoe mara tu ankara inapolipwa.

CAREFUL KUWA MAKINI

A customer standing at the counter with money already paid, waiting on a note nobody issued, is the one failure they will remember.

Mteja aliyesimama kaunta akiwa amelipa, akisubiri hati ambayo hakuna aliyeitoa — hilo ndilo kosa atakalolikumbuka.

Collections – chasing what is owed

Ukusanyaji – kufuatilia madeni

/app/collections

Everything unpaid, oldest first, with a phone number beside it. The oldest debt is the one least likely to ever be collected, so work down from the top.

Kila kisicholipwa, kikianza cha zamani, na namba ya simu kando yake. Deni kongwe ndilo lenye nafasi ndogo zaidi ya kukusanywa, hivyo anza kutoka juu.

Maswali ya mara kwa mara

QUESTION SWALI	ANSWER JIBU
Can I edit an invoice after payment? Naweza kuhariri ankara baada ya malipo?	No. Once any money has landed against it, it is closed to changes. Correct it before the first payment, or raise the difference separately. Hapana. Pesa yoyote ikishaingia, haiwezi kubadilishwa. Irekebishe kabla ya malipo ya kwanza, au dai tofauti kivyake.
The system refuses an overpayment. Mfumo unakataa malipo ya ziada.	Correct. It refuses rather than quietly creating a credit nobody asked for. Check the numbers. Ni sahihi. Unakataa badala ya kuunda salio ambalo hakuna aliyeliomba. Kagua takwimu.
A customer paid in shillings but the invoice is in dollars. Mteja alilipa kwa shilingi lakini ankara ni ya dola.	That is normal. The system converts at the rate frozen onto that invoice, so the figure can be re-explained months later. Ni kawaida. Mfumo unabadilisha kwa kiwango kilichogandishwa kwenye ankara hiyo, ili takwimu ieleweke hata miezi baadaye.
Can I cancel a pickup note? Naweza kufuta hati ya kuchukua?	Yes, but only before the cargo is collected. After handover the record stands. Ndiyo, lakini kabla mzigo haujachukuliwa. Baada ya makabidhiano kumbukumbu inabaki.
Why can the warehouse not see the amount? Kwa nini ghala hawaoni kiasi?	They get the payment fact, never the figure. The figure is yours to defend. Wanapata taarifa kuwa imelipwa, siyo kiasi. Kiasi ni jukumu lako kukitetea.
