01

Welcome to the customer desk

Karibu kwenye kitengo cha wateja

You are the voice of this business. What you never do is decide that money arrived — and the whole department is built around that one line.

Wewe ndiye sauti ya kampuni hii. Kitu usichofanya kamwe ni kuamua kuwa pesa imefika — na kitengo kizima kimejengwa kuzunguka msingi huo mmoja.

What this desk is, and what it is not

Kitengo hiki ni nini, na si nini

YOU MAY SAY UNaweza KUSEMA

"The customer says they have paid"

"Mteja anasema amelipa"

You take the claim, attach their evidence, and hand it up to Finance. A submission moves no money: it writes nothing to the invoice, nothing to the ledger, nothing to any balance. **A claim is not money.**

Unapokea dai, unaambatisha ushahidi wake, na kulipeleka kwa Fedha. Uwasilishaji hauhamishi pesa: hauandiki chochote kwenye ankara, daftari, wala salio lolote. **Dai siyo pesa.**

YOU MAY NOT SAY HUWEZI KUSEMA

"The money arrived"

"Pesa imefika"

Only Finance can. That single denial is why this desk can ring customers all day without ever being able to release cargo or move a figure — and why nobody can pressure you into doing it.

Ni Fedha pekee wanaoweza. Kukatazwa huko ndiko kunakofanya kitengo hiki kiweze kupiga simu kwa wateja siku nzima bila kuweza kutoa mzigo au kuhamisha takwimu — na ndiyo maana hakuna anayeweza kukushinikiza kufanya hivyo.

YOUR DAY SIKU YAKO

WHAT IT MEANS MAANA YAKE

Land on your desk
Fika kwenye kitengo chako

/app/support is your dashboard. There is no second one.
/app/support ndio ukurasa wako. Hakuna mwingine.

Read what needs you
Soma kinachohitaji uangalizi

One panel, already sorted by urgency. Work it top to bottom.
Paneli moja, imepangwa kwa udharura. Anza juu hadi chini.

Clear rejections first
Anza na yaliyorudishwa

Anything Finance sent back is a customer waiting on you.
Chochote Fedha walichorudisha ni mteja anayekusubiri.

Work the call list
Fanyia kazi orodha ya simu

Read the Next action column before you dial.
Soma safu ya Hatua Inayofuata kabla ya kupiga simu.

Take their proof
Chukua ushahidi wao

A reference on its own is not evidence. Attach the file.
Namba ya kumbukumbu pekee siyo ushahidi. Ambatisha faili.

Tell them to collect
Waambie waje kuchukua

Only once the pickup note actually exists.
Tu baada ya hati ya kuchukua kuwepo kweli.

What you may and may not do

Unachoweza na usichoweza

YOU MAY UNaweza

Talk, bill, chase, record

Kuongea, kutoza, kufuatilia, kuandika

See every consignment and what the customer owes · bill a customer and edit an invoice · chase with a pre-written Swahili reminder on WhatsApp · take a payment claim with evidence · print a pickup note Finance already issued · open and close tickets and sourcing requests · quote from the rate book.

Kuona kila mzigo na deni la mteja · kutoza mteja na kuhariri ankara · kufuatilia kwa ujumbe wa Kiswahili ulioandaliwa kwenye WhatsApp · kuchukua dai la malipo pamoja na ushahidi · kuchapisha hati ya kuchukua iliyotolewa na Fedha · kufungua na kufunga tiketi na maombi ya kutafuta bidhaa · kunukuu kutoka kitabu cha bei.

YOU MAY NOT HUWEZI

Confirm money, issue notes, discount

Kuthibitisha pesa, kutoa hati, kupunguza bei

Say money arrived · verify your own submission · issue or cancel a pickup note · give a discount · open the company's books — accounts, ledger, costs, profit · touch the cargo: no registering, scanning, receiving or releasing.

Kusema pesa imefika · kuthibitisha uwasilishaji wako mwenyewe · kutoa au kufuta hati ya kuchukua · kutoa punguzo · kufungua vitabu vya kampuni — akaunti, daftari, gharama, faida · kugusa mzigo: hakuna kusajili, kuskani, kupokea wala kukabidhi.

THE ONE THAT PROTECTS YOU HILI LINAKULINDA

Never tell a customer their cargo is released until the pickup note actually exists. A customer sent to the warehouse too early is turned away at the counter — and it is your name they remember.

Usimwambie mteja mzigo wake umeruhusiwa hadi hati ya kuchukua iwepo kweli. Mteja aliyetumwa ghalani mapema mno anarudishwa kaunta — na jina lako ndilo atakalolikumbuka.

Signing in

Kuingia kwenye mfumo

One address, one account, and your desk is the home page.

Anwani moja, akaunti moja, na kitengo chako ndio ukurasa wa mwanzo.

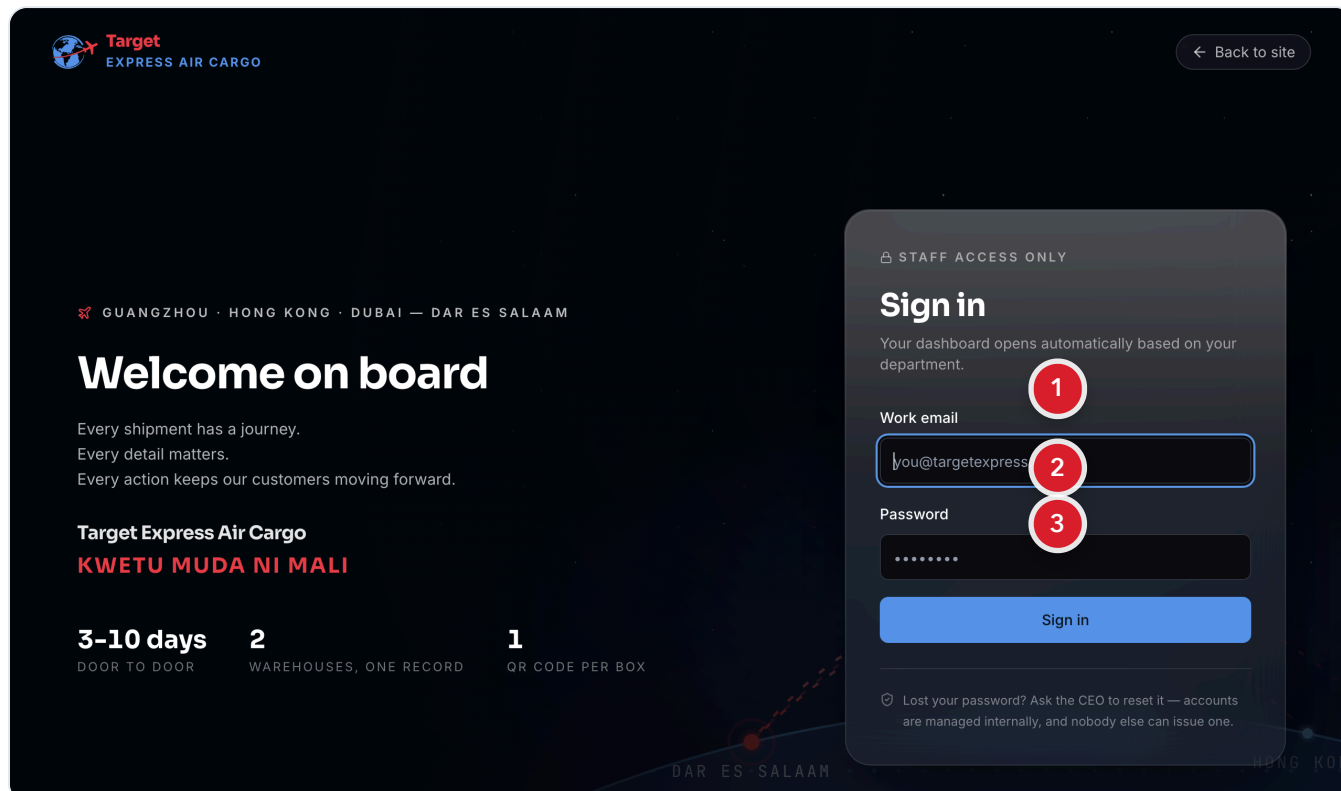

The login screen

Ukurasa wa kuingia

target-epress.vercel.app

Type your work email and password. Everyone signs in at the same door, and the system sends you straight to the support desk. If you bookmarked a dashboard from another role it still works — it simply redirects back here.

Andika barua pepe yako ya kazi na nenosiri. Kila mtu anaingia mlango mmoja, na mfumo unakupeleka moja kwa moja kwenye kitengo cha huduma. Kama uliweka alama ya ukurasa wa kitengo kingine bado unafanya kazi — unarudi hapa tu.

1

Email Barua pepe

e.g. support@targetexpress.co.tz

mfano support@targetexpress.co.tz

2

Password Nenosiri

Change it from Profile once you are in.

Ibadilishe kwenye Wasifu baada ya kuingia.

3

Sign in Ingia

Straight to /app/support — your desk IS the dashboard.

Moja kwa moja hadi /app/support — kitengo chako NDIO ukurasa wa mwanzo.

TIP KIDOKEZO

Do not go looking for a second dashboard. There isn't one, and that is deliberate — everything this desk does starts on one page.

Usitafute ukurasa mwingine wa mwanzo. Haupo, na hiyo ni kwa makusudi — kila kitu kitengo hiki kinachofanya kinaanzia ukurasa mmoja.

03

Your home screen

Ukurasa wako wa mwanzo

One panel, already sorted by what costs the business most.

Paneli moja, tayari imepangwa kwa hasara kubwa kwa kampuni.

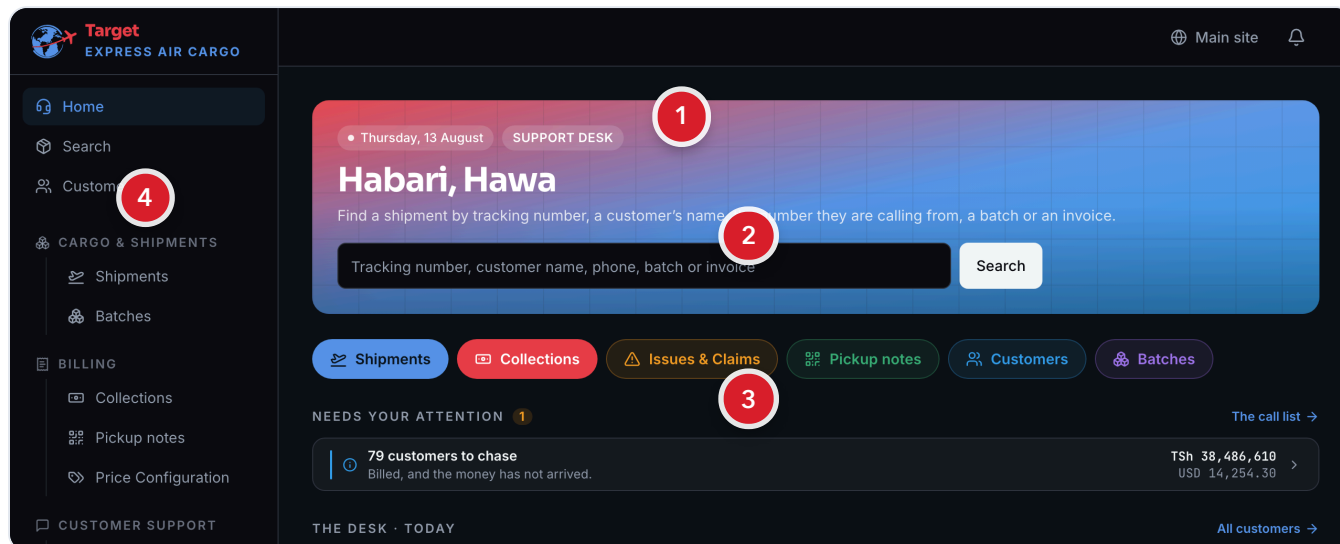

Home, section by section

Ukurasa wa mwanzo, sehemu kwa sehemu

/app/support

Search at the top, then Needs your attention, then the tiles and the call list. Work the panel in the order it gives you — it is not alphabetical, it is ordered by urgency.

Utafutaji juu, kisha Yanayohitaji uangalizi wako, kisha vipimo na orodha ya simu. Fanyia kazi paneli kwa mpangilio inavyokupa — siyo wa alfabeti, ni wa udharura.

1 The search box Kisanduku cha utafutaji

Tracking number, customer name, the number they are calling from, a batch or an invoice. Whatever the caller has, type it here.

Namba ya ufuatiliaji, jina la mteja, namba anayopigia, kundi au ankara. Chochote mpigaji alichonacho, kiandike hapa.

2 Needs your attention Yanayohitaji uangalizi wako

Urgent tickets, customers to chase, payments Finance sent back, claims still waiting, cases parked on a customer's answer.

Tiketi za dharura, wateja wa kufuatilia, malipo Fedha waliyorudisha, madai yanayosubiri, kesi zinazosubiri jibu la mteja.

3 The call list preview Muhtasari wa orodha ya simu

The top six customers to ring. The full queue is one press away.

Wateja sita wa kwanza wa kupigiwa. Orodha kamili iko bonyezo moja tu.

4 The sidebar Menyu ya kando

Everything you can reach, grouped by the kind of work.

Kila ukurasa unaoweza kufikia, umepangwa kwa aina ya kazi.

TIP KIDOKEZO

When the panel is empty it says so: **“Nothing is waiting on you. Every landed consignment is billed and no customer is owed a call.”** That is a real state, not a screen that failed to load.

Paneli ikiwa tupu inasema hivyo: **“Hakuna kinachokusubiri. Kila mzigo uliofika umetozwa na hakuna mteja anayedai simu.”** Hiyo ni hali halisi, siyo ukurasa ulioshindwa kupakia.

Every consignment sitting in Dar that is already billed and not yet paid, with a phone number on the row. Read the **Next action** column before you dial — a row that says “Confirm the price” means the invoice is still a draft.

Kila mzigo uliopo Dar ambao umeshatozwa na haujalipwa, na namba ya simu kwenye mstari. Soma safu ya **Hatua Inayofuata** kabla ya kupiga — mstari unaosema “Thibitisha bei” maana yake ankara bado ni rasimu.

- The band totals Jumla za juu**
 A live estimate at today's rate. **Quote the row, never the band** — the row is the exact figure the customer was given.
 Makadirio ya sasa kwa kiwango cha leo. **Nukuu mstari, siyo jumla ya juu** — mstari ndio kiasi hasa alichopewa mteja.
- The WhatsApp icon Alama ya WhatsApp**
 The Swahili reminder is already written: name, tracking number, goods, invoice, weight, amount in shillings and where to pay.
 Ujumbe wa Kiswahili umeshaandikwa: jina, namba ya ufuatiliaji, bidhaa, ankara, uzito, kiasi kwa shilingi na mahali pa kulipa.
- Next action Hatua inayofuata**
 Tells you what this row actually needs. Read it first and you will never quote a figure the business has not agreed.
 Inakuambia mstari huu unahitaji nini hasa. Isome kwanza na hutawahi kunukuu kiasi ambacho kampuni haijakubali.

NEVER DO THIS USIFANYE HIVI KAMWE

Never quote a draft. A draft is the system's price, not a bill. Asking a customer for a figure this business has not yet agreed to is how a quote becomes an argument.

Usinukuu rasimu kamwe. Rasimu ni bei ya mfumo, siyo ankara. Kumwomba mteja kiasi ambacho kampuni haijakubali ndiko kunakogeza nukuu kuwa ugomvi.

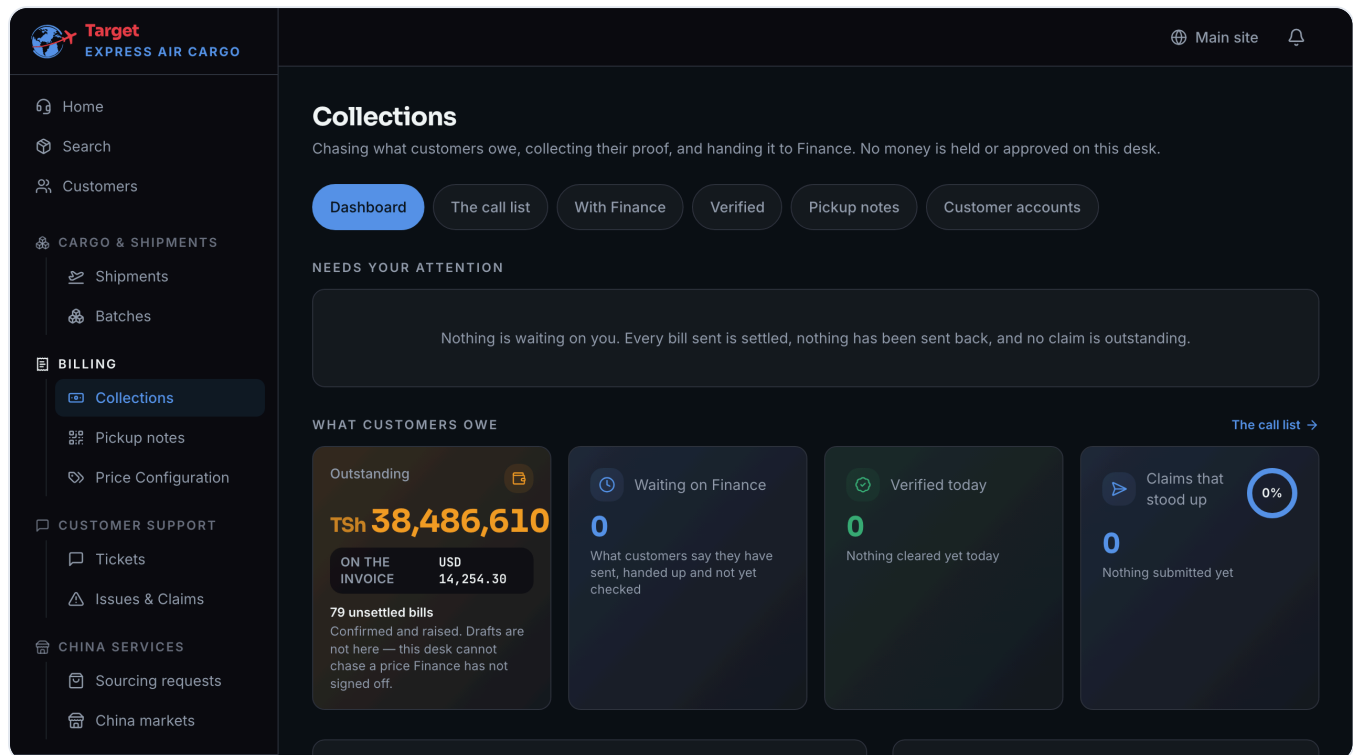

Recording a payment claim

Kuandika dai la malipo

/app/collections/record

When a customer says they have paid, open the payment icon on their row. Everything except the reference and the attachment is filled in for you. You must attach evidence — Finance cannot verify a reference on its own.

Mteja anaposema amelipa, fungua alama ya malipo kwenye mstari wake. Kila kitu isipokuwa namba ya kumbukumbu na kiambatisho kimeshajazwa. Lazima uambatishe ushahidi — Fedha hawawezi kuthibitisha namba peke yake.

- 1 The reference Namba ya kumbukumbu**
The M-Pesa or bank reference the customer gives you.

Namba ya M-Pesa au benki mteja anayokupa.

- 2 The attachment Kiambatisho**
A screenshot or slip. Required — a reference alone is refused.

Picha au risiti. Ni lazima — namba peke yake inakataliwa.

- 3 Hand up to Finance Wasilisha kwa Fedha**
This moves no money. Finance rules on it, and only then does anything settle.

Hii haihamishi pesa. Fedha wanaamua, na hapo tu ndipo kitu kinakamilika.

CAREFUL KUWA MAKINI

An iPhone HEIC photo is refused, because Finance must be able to open it. Ask for a screenshot, or have the customer set Camera → Formats to **Most Compatible**. And note: **one pending claim per bill** — a second is refused by name.

Picha ya HEIC ya iPhone inakataliwa, kwa sababu Fedha lazima waweze kuifungua. Omba picha ya skrini, au mteja abadilishe Kamera → Miundo kuwa **Most Compatible**. Pia: **dai moja tu linalosubiri kwa kila ankara** — la pili linakataliwa kwa jina.

Tickets – every call written down

Tiketi – kila simu imeandikwa

/app/support/tickets

Take calls, complaints and price enquiries as tickets. A customer link is optional — price enquiries arrive before people are customers — but a name or a phone number is required.

Pokea simu, malalamiko na maswali ya bei kama tiketi. Kumuunganisha mteja siyo lazima — maswali ya bei huja kabla watu hawajawa wateja — lakini jina au namba ya simu ni lazima.

CAREFUL KUWA MAKINI

You cannot mark a request **Supplier found** or **Completed** without recording what you found. Goods from around Guangzhou consolidate at the Guangzhou warehouse; electronics from Shenzhen fly out of Hong Kong — telling a customer the wrong one changes what they pay.

Huwezi kuweka alama **Msambazaji amepatikana** au **Imekamilika** bila kuandika ulichokipata. Bidhaa za maeneo ya Guangzhou hukusanywa ghala la Guangzhou; vifaa vya elektroniki vya Shenzhen husafiri kupitia Hong Kong — kumwambia mteja soko lisilo sahihi kunabadilisha atakacholipa.

THE MISTAKE KOSA	WHAT IT CAUSES LINALOSABABISHA	WHAT TO DO CHA KUFANYA
Quoting the band total Kunukuu jumla ya juu	You quote a live estimate; the customer pays a different figure and disputes it. Unanukuu makadirio; mteja analipa kiasi tofauti na kupinga.	Quote the amount on the customer's own row. Nukuu kiasi kilicho kwenye mstari wa mteja mwenyewe.
Quoting a draft Kunukuu rasimu	You ask for a figure the business has not agreed. It may change. Unaomba kiasi ambacho kampuni haijakubali. Kinaweza kubadilika.	Wait for Finance to confirm the price. Subiri Fedha wathibitishe bei.
A reference with no attachment Namba bila kiambatisho	Finance cannot verify it and sends it back; the customer waits another day. Fedha hawawezi kuthibitisha na wanarudisha; mteja anasubiri siku nyingine.	Always attach the screenshot or slip. Daima ambatisha picha au risiti.

QUESTION SWALI	ANSWER JIBU
The customer paid but the system still says unpaid. Mteja amelipa lakini mfumo bado unasema hajalipa.	Your claim is with Finance. Nothing settles until they verify it — that is the design, not a delay you caused. Dai lako liko kwa Fedha. Hakuna kinachokamilika hadi wathibitishe — hiyo ndiyo muundo, siyo ucheleweshaji wako.
Can I give a discount? Naweza kutoa punguzo?	No. You can edit an invoice's notes and other charges, but not the discount. That is deliberate. Hapana. Unaweza kuhariri maelezo na gharama nyingine za ankara, lakini siyo punguzo. Hiyo ni kwa makusudi.
A customer is angry about storage charges. Mteja amekasirika kuhusu gharama za uhifadhi.	Storage is free for 7 days, then USD 2 per day. Explain the policy, and send billing questions to Finance. Uhifadhi ni bure kwa siku 7, kisha USD 2 kwa siku. Eleza sera, na peleka maswali ya ankara kwa Fedha.
Someone is asking for a price before they are a customer. Mtu anauliza bei kabla hajawa mteja.	That is normal. Open a ticket with just a name or phone number and read the quote off Price Configuration. Ni kawaida. Fungua tiketi kwa jina au namba ya simu tu na usome nukuu kutoka Mipangilio ya Bei.
Can I see how much the company has in the bank? Naweza kuona kampuni ina kiasi gani benki?	No. You chase a customer's bill; you do not keep the books. Those are two different permissions on purpose. Hapana. Wewe unafuatilia ankara ya mteja; huwezi kutunza vitabu. Hayo ni mamlaka mawili tofauti kwa makusudi.

IF YOU REMEMBER ONE SENTENCE UKIKUMBUKA SENTENSI MOJA

You hold the relationship; Finance holds the money. Keeping those apart is what lets you be completely straight with a customer about everything except whether their payment has landed.

Wewe unashikilia uhusiano; Fedha wanashikilia pesa. Kutenganisha hivyo ndiko kunakokuwezesha kuwa mnyoofu kabisa kwa mteja kuhusu kila kitu isipokuwa kama malipo yake yamefika.
