# Welcome to the Dar floor

Karibu kwenye ghala la Dar

From the moment a flight lands until a customer walks out with their boxes, the cargo is yours.

Tangu ndege inapotua hadi mteja anapotoka na mizigo yake, mizigo hiyo iko chini yako.

# What this desk is for

## Kazi ya kitengo hiki

You take physical custody of everything this business flies. You count what arrives, you say what condition it is in, you hold it safely, and you hand it over — but only against a pickup note Finance has issued. You never write the China record and you never touch money.

Wewe ndiye unayepokea na kutunza kila mzigo unaosafirishwa na kampuni hii. Unahesabu kilichofika, unathibitisha hali yake, unautunza salama, na unaukabidhi — lakini tu kwa kutumia hati ya kuchukua mzigo iliyotolewa na Fedha. Hauandiki kumbukumbu za China wala hushughuliki na pesa.

### YOUR WORD COUNTS NENO LAKO LINA UZITO

#### What arrived, and in what condition

##### Kilichofika, na hali yake

Your check-in is the only comparison anyone will ever make between what Guangzhou declared and what actually landed. Nobody audits it afterwards. If you tick a box clean, it is clean.

Ukaguzi wako ndio ulinganisho pekee kati ya kile Guangzhou walichotangaza na kile kilichofika kweli. Hakuna anayekagua tena baadaye. Ukiweka alama kuwa mzigo ni salama, basi ni salama.

### NOT YOUR CALL SIYO UAMUZI WAKO

#### Whether the cargo may leave

##### Kama mzigo unaweza kutoka

That is answered by a pickup note Finance issued, and by any open case on the cargo. You cannot see a price or issue a note. If there is no note, the answer is 'check with Finance' — never a workaround.

Hilo linajibiwa na hati ya kuchukua iliyotolewa na Fedha, na kesi yoyote iliyo wazi kuhusu mzigo. Huwezi kuona bei wala kutoa hati. Kama hakuna hati, jibu ni 'wasiliana na Fedha' — kamwe usitafute njia ya mkato.

### YOUR DAY SIKU YAKO

### WHAT IT MEANS MAANA YAKE

#### Read the floor Angalia hali ya ghala

Three chips and one panel tell you the whole morning.  
Vipimo vitatu na paneli moja vinakuonyesha kazi ya asubuhi nzima.

#### Land the flight Pokea ndege

Mark the batch arrived. From here it is yours to check in.  
Weka alama kuwa kundi limefika. Kuanzia hapa ni jukumu lako kulikagua.

#### Check in every line Kagua kila mstari

Six outcomes. Damage needs a severity and a photograph.  
Matokeo sita. Uharibifu unahitaji kiwango na picha.

#### Release cargo Kabidhi mzigo

Scan the carton, photograph the handover, hand it over.  
Skani boksi, piga picha ya makabidhiano, kabidhi.

# What you may and may not do

Unachoweza na usichoweza

## YOU MAY UNARUHUSIWA

### Count, hold, hand over

#### Hesabu, tunza, kabadhi

Mark a flight arrived · check it in against the manifest · rule on every consignment · see the photographs Guangzhou took · scan and release against an active pickup note · open an investigation when a box is missing.

Weka alama ndege imefika · kagua kwa kutumia orodha ya mizigo · toa uamuzi kwa kila mizigo · ona picha zilizopigwa Guangzhou · skani na kabadhi kwa hati hai ya kuchukua · fungua uchunguzi mizigo unapokosekana.

## YOU MAY NOT HURUHUSIWI

### Register, price, release without a note

#### Kusajili, kupanga bei, kukabadhi bila hati

Register cargo · print or reprint a label · see any price or invoice · open, print, issue or cancel a pickup note · seal or dispatch a batch · approve a payout on a claim.

Kusajili mizigo · kuchapisha au kuchapisha upya lebo · kuona bei au ankara yoyote · kufungua, kuchapisha, kutoa au kufuta hati ya kuchukua · kufunga au kusafirisha kundi · kuidhinisha malipo ya fidia.

THE RULE THAT PROTECTS YOU KANUNI INAYOKULINDA

**A partial shipment is never released.** Handing over four boxes out of five and sorting it out later is how a claim starts. The system refuses it, and that refusal is on your side.

**Mzigo usiokamilika haukabadhiwi kamwe.** Kukabadhi maboksi manne kati ya matano na kumalizia baadaye ndiyo chanzo cha madai. Mfumo unakataa, na kukataa huko kunakulinda wewe.

## Signing in

Kuingia kwenye mfumo

One address, one account.

Anwani moja, akaunti moja.

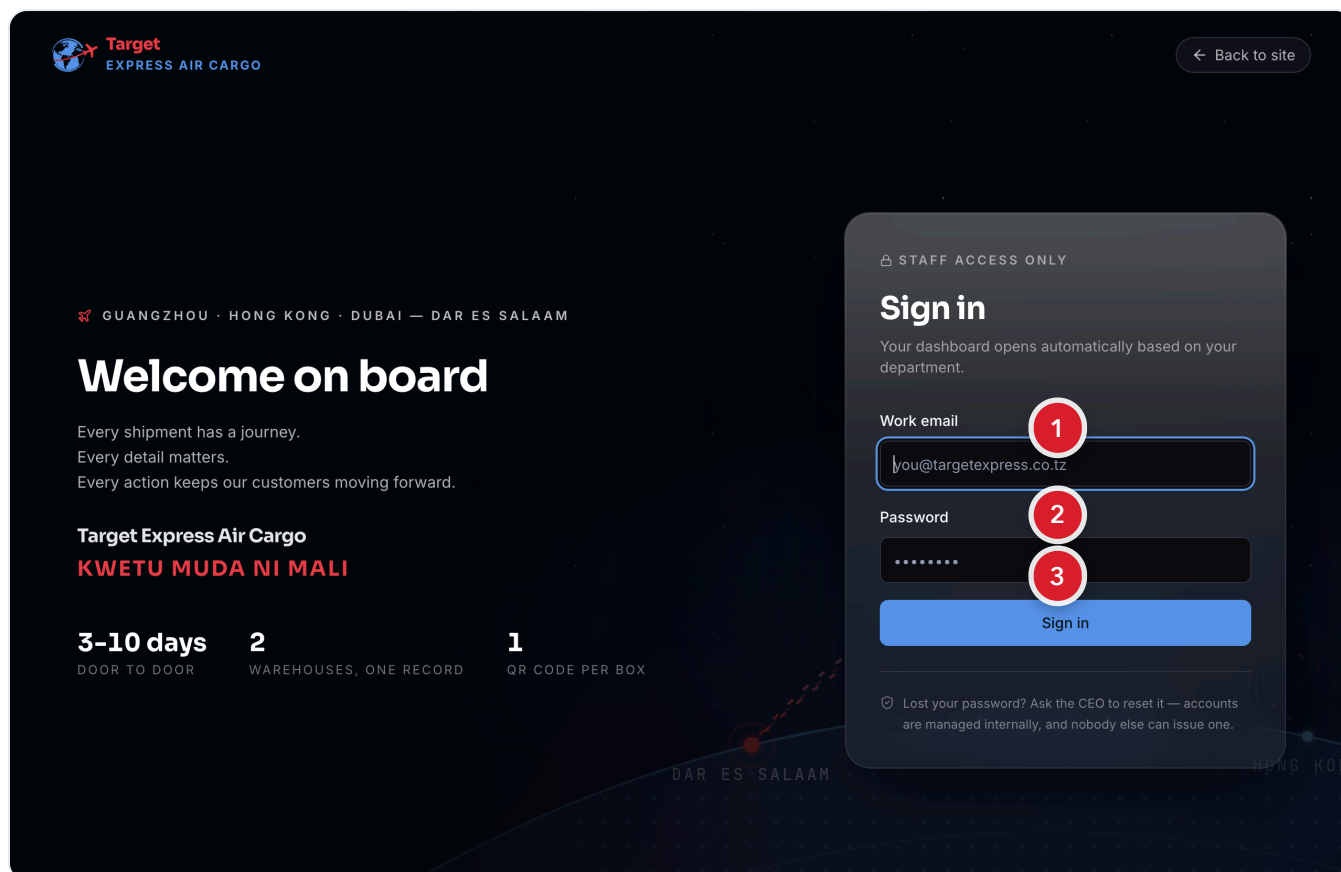

# The login screen

Ukurasa wa kuingia

target-epress.vercel.app

Open the address on the counter computer or your phone. Type your work email and password, then press Sign in. You land straight on your own department's home — there is no department to choose.

Fungua anwani hii kwenye kompyuta ya kaunta au simu yako. Andika barua pepe yako ya kazi na nenosiri, kisha bonyeza Ingia. Utafika moja kwa moja kwenye ukurasa wa kitengo chako — huhitaji kuchagua kitengo.

1

## Email Barua pepe

Your work email, e.g. warehouse@targetexpress.co.tz.

Barua pepe yako ya kazi, mfano warehouse@targetexpress.co.tz.

2

## Password Nenosiri

Set by management. Change it from Profile once you are in.

Imewekwa na uongozi. Ibadilishe kwenye Wasifu baada ya kuingia.

3

## Sign in Ingia

Takes you to the Dar floor home screen.

Inakupeleka kwenye ukurasa wa ghala la Dar.

### TIP KIDOKEZO

Never share an account. Every check-in and every handover carries the name of whoever was signed in.

Usishirikishe akaunti yako. Kila ukaguzi na kila makabidhiano hubeba jina la aliyeingia.

# 03

## Your home screen

Ukurasa wako wa mwanzo

Three numbers and one job list.

Namba tatu na orodha moja ya kazi.

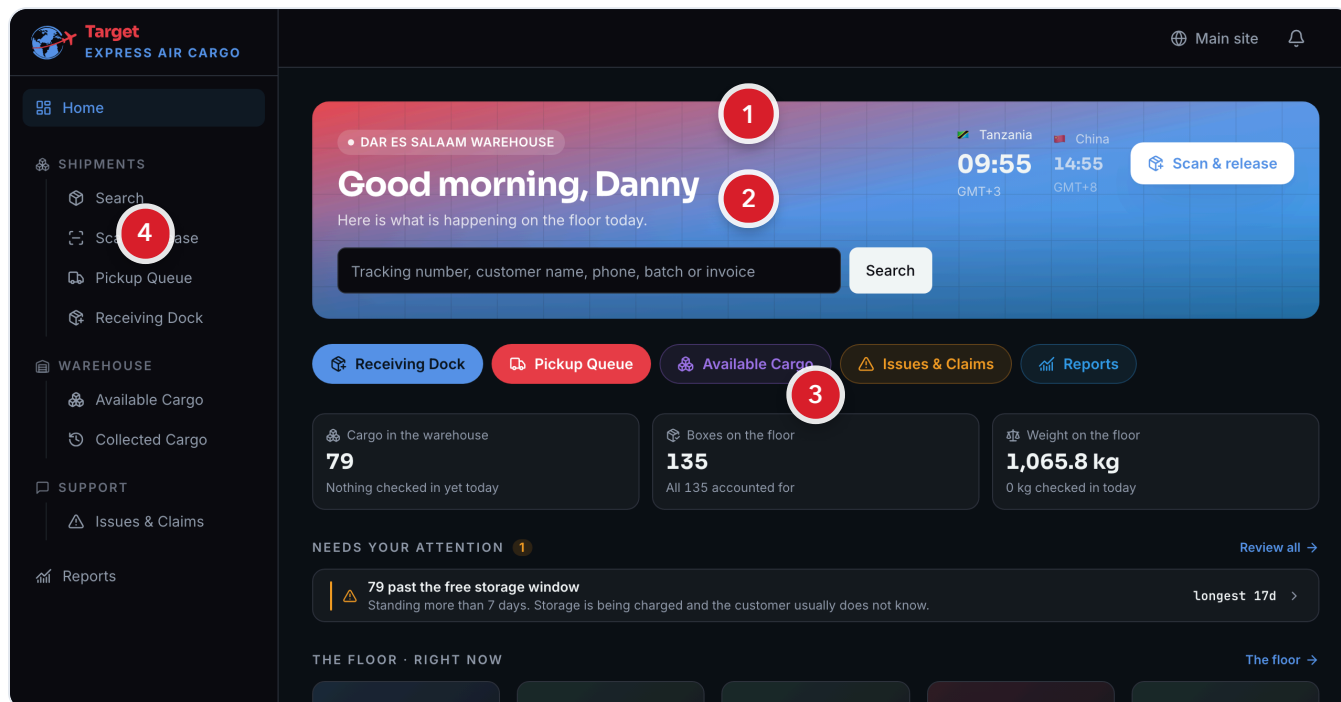

# Home, section by section

Ukurasa wa mwanzo, sehemu kwa sehemu

/app/dashboard

You see cargo and time. You do not see money, anywhere, by design.

Unaona mizigo na muda. Huoni pesa popote, na hivyo ndivyo mfumo ulivyoungwa.

## 1 The banner Kichwa cha ukurasa

Your name and the department badge.

Jina lako na alama ya kitengo.

## 2 Three floor chips Vipimo vitatu vya ghala

Cargo in the warehouse, boxes on the floor, weight on the floor. The boxes chip reads 'short of the manifest' when fewer cartons were ticked in than Guangzhou declared.

Mizigo iliyoko ghalani, maboksi yaliyopo, na uzito uliopo. Kipimo cha maboksi husema 'pungufu ya orodha' pale maboksi yaliyopokelewa ni machache kuliko Guangzhou walivyotangaza.

## 3 Needs your attention Yanayohitaji uangalizi wako

Flights to land, counts that do not match, cargo ready to be collected today. Work it from the top.

Ndege za kupokea, hesabu zisizolingana, mizigo iliyo tayari kuchukuliwa leo. Anza kutoka juu.

## 4 The sidebar Menyu ya kando

Everything you can reach, grouped by the kind of work.

Kila ukurasa unaoweza kufikia, umepangwa kwa aina ya kazi.

CAREFUL KUWA MAKINI

**'Short of the manifest' never fixes itself.** It is either a mis-scan or a genuinely missing box, and both need somebody to go and look. Recount the same day.

**'Pungufu ya orodha' hakujirekebishi.** Ni ama kosa la kuskani au boksi limepotea kweli, na vyote vinahitaji mtu aende kuangalia. Hesabu tena siku hiyo hiyo.

# 04

# Receiving Dock – checking a flight in

Sehemu ya kupokea – kukagua ndege

/app/receive

Find the batch that has landed and mark it arrived. Then print the manifest and check the boxes against paper — not against a screen you are also trying to hold while counting.

Tafuta kundi lililofika na uweke alama limefika. Kisha chapisha orodha ya mizigo na ukague maboksi ukitumia karatasi — siyo skrini unayoshikilia huku unahesabu.

## 1 Mark as arrived Weka alama imefika

Only a batch in transit can be landed. From this moment the batch is yours to check in.

Ni kundi lililo safarini pekee linaloweza kuwekewa alama limefika. Kuanzia hapa kundi ni jukumu lako.

## 2 The six outcomes Matokeo sita

Received, Missing, Damaged, Wrong item, Wrong quantity, Hold for investigation. Anything other than Received opens a case automatically.

Imepokelewa, Haipo, Imeharibika, Bidhaa isiyo sahihi, Idadi isiyo sahihi, Zuia kwa uchunguzi. Chochote kisicho 'Imepokelewa' hufungua kesi moja kwa moja.

## 3 The China photographs Picha za China

Each row opens to show what Guangzhou photographed before the cargo flew. If there are none, check the label and packing list harder before you tick it clean.

Kila mstari unafunguka kuonyesha picha Guangzhou walizopiga kabla mzigo haujasafiri. Kama hakuna, kagua lebo na orodha ya vifurushi kwa makini zaidi kabla ya kuweka alama ya usalama.

NEVER DO THIS USIFANYE HIVI

**Damage needs a severity and a photograph.** This is the only moment that picture can be taken. Once the box is on the shelf, nobody can prove whether it arrived that way or was dropped here.

**Uharibifu unahitaji kiwango na picha.** Huu ndio wakati pekee picha hiyo inaweza kupigwa. Boksi likishawekwa rafuni, hakuna anayeweza kuthibitisha kama lilifika hivyo au liliangushwa hapa.

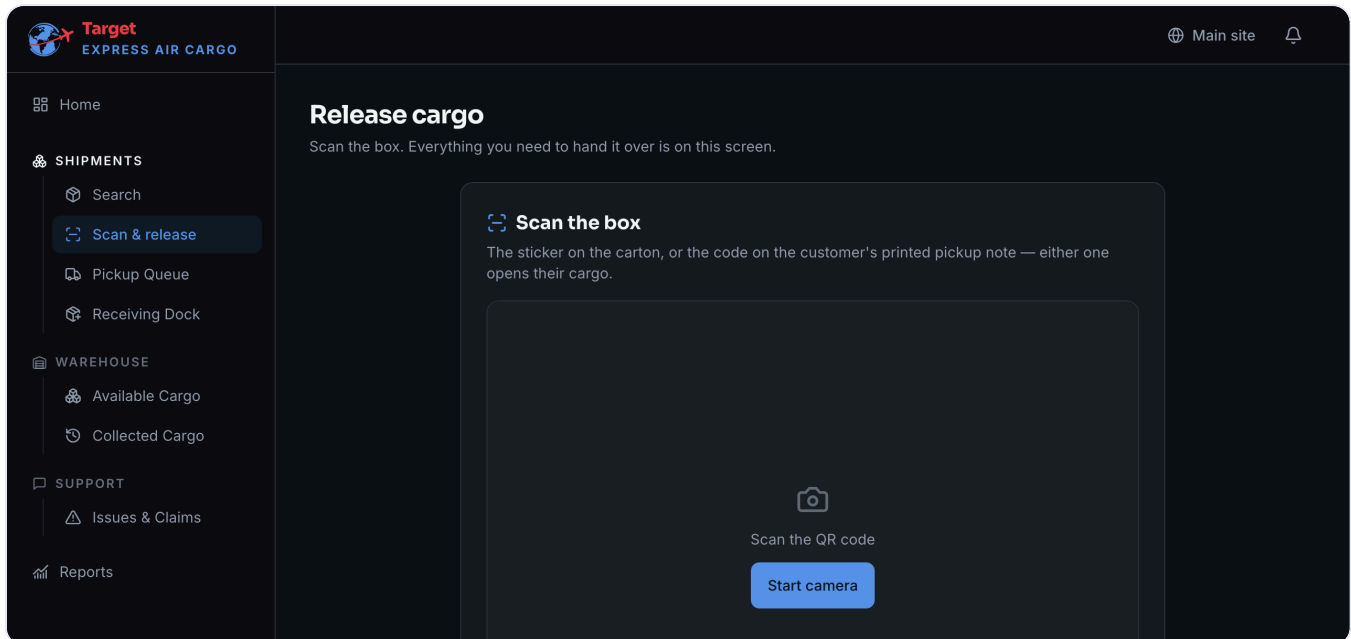

# Scan & release – the handover

Skani na kabadhi – makabidhiano

/app/release

One scan of the QR on the carton. The screen opens with the customer, the cargo, whether it is paid, and the release form — everything on one page, nothing to go and fetch.

Skani moja ya msimbo wa QR ulioko kwenye boksi. Ukurasa unafunguka na taarifa za mteja, mzigo, kama umelipiwa, na fomu ya kukabidhi — kila kitu ukurasa mmoja, hakuna cha kwenda kutafuta.

## 1 Six things must agree Mambo sita lazima yakubaliane

An active pickup note, the note matching this cargo, no open case, every package checked in, the full carton count, and the handover photograph. All re-checked together at the moment you press the button.

Hati hai ya kuchukua, hati inayolingana na mzigo huu, hakuna kesi iliyo wazi, kila kifurushi kimepokelewa, idadi kamili ya maboksi, na picha ya makabidhiano. Vyote hukaguliwa tena kwa pamoja unapobonyeza kitufe.

## 2 Who is collecting Nani anachukua

Receiver name, phone, what they are to the customer, and their ID number. This is the record that settles a dispute later.

Jina la mpokeaji, simu, uhusiano wake na mteja, na namba ya kitambulisho. Hii ndiyo kumbukumbu itakayotatua mgogoro baadaye.

## 3 Unable to locate cargo Mzigo haujapatikana

When the box is not on the shelf. Write where you looked — at least five characters, and the server refuses short answers.

Pale boksi halipo rafuni. Andika ulipotafuta — angalau herufi tano, na mfumo unakataa majibu mafupi.

NEVER DO THIS USIFANYE HIVI

**Never mark cargo delivered when you cannot find it.** 'Where did you look?' is the only thing the person searching tomorrow has to go on. Name the shelf, the bay and the batch.

**Usiweke alama kuwa mzigo umekabidhiwa ikiwa hujaupata.** 'Ulitafula wapi?' ndicho kitu pekee atakachotumia atakayetafuta kesho. Taja rafu, eneo na kundi.

# Pickup Queue – who may collect

Foleni ya kuchukua – nani anaweza kuchukua

/app/pickup-queue

Read the blockers on each row before a customer is standing in front of you. They mirror, in the same order, the checks the release itself will run.

Soma vizuizi vya kila mstari kabla mteja hajasimama mbele yako. Vinafuata mpangilio uleule wa ukaguzi utakaofanyika wakati wa kukabidhi.

CAREFUL KUWA MAKINI

A row can look perfectly paid and still be locked. **An open case holds the cargo whatever the money says.**

Mstari unaweza kuonekana umelipiwa kikamilifu lakini bado umezuiwa. **Kesi iliyo wazi huzuia mzigo bila kujali hali ya malipo.**

# Available Cargo – what is standing

Mizigo iliyopo – iliyoko ghalani

/app/inventory

What is on the floor now, sorted by how long it has stood. Storage is free for 7 days, then USD 2 per day. You cannot see or quote the charge — tell the customer to collect and let Finance state the amount.

Kilichoko ghalani sasa, kimepangwa kwa muda kilichokaa. Uhifadhi ni bure kwa siku 7, kisha USD 2 kwa siku. Huwezi kuona wala kutaja gharama — mwambie mteja aje kuchukua, na Fedha ndio watataja kiasi.

# Collected Cargo & Reports

Mizigo iliyochukuliwa na Ripoti

</app/deliveries> · </app/reports>

Every handover with the receiver, the relationship, who released it and the photo. Reports show throughput, how long each leg took, and who did the work.

Kila makabidhiano likiwa na mpokeaji, uhusiano, aliyekabidhi na picha. Ripoti zinaonyesha kiasi cha kazi, muda wa kila hatua, na nani alifanya kazi.

## TIP KIDOKOZO

The 'who did the work' table counts exceptions raised per person, and the page says so plainly: raising an exception is doing the job properly, not a mark against anyone. Do not stop flagging problems.

Jedwali la 'nani alifanya kazi' huhesabu kesi zilizofunguliwa na kila mtu, na ukurasa unasema wazi: kufungua kesi ni kufanya kazi vizuri, siyo kosa. Usiache kuripoti matatizo.

## Working well

Kufanya kazi vizuri

Habits that protect you and the customer.

Tabia zinazokulinda wewe na mteja.

# Best practice

Mbinu bora

## COUNT KUHESABU

### Against paper, always

#### Kwa karatasi, kila wakati

Print the manifest. Counting off a screen you are holding is how a line gets skipped.

Chapisha orodha. Kuhesabu ukiangalia skrini unayoshikilia ndiko kunakosababisha kuruka mstari.

## PHOTOGRAPH KUPIGA PICHA

### At the moment, not later

#### Wakati huo huo, siyo baadaye

Damage on the bench, handover at the counter. Neither picture can be taken afterwards.

Uharibifu hapo mezani, makabidhiano kaunta. Picha zote mbili haziwezi kupigwa baadaye.

## QUEUE FOLENI

### Pre-check before customers arrive

#### Kagua kabla wateja hawajafika

Read the blockers early. That is the difference between a two-minute handover and an argument.

Soma vizuizi mapema. Hiyo ndiyo tofauti kati ya makabidhiano ya dakika mbili na ugomvi.

## MISSING ULIOPOTEA

### Write where you looked

#### Andika ulipotafuta

Name the shelf, the bay, the batch. 'Not found' helps nobody.

Taja rafu, eneo, kundi. 'Haijapatikana' haisaidii mtu.

## MONEY PESA

### Never quote a figure

#### Usitaje kiasi chochote

You do not have prices on screen. Send the customer to Finance.

Huna bei skrini. Mpeleke mteja kwa Fedha.

## CASES KESI

### Flag problems freely

#### Ripoti matatizo bila woga

Raising an exception is doing the job properly. The reports say so.

Kufungua kesi ni kufanya kazi vizuri. Ripoti zinasema hivyo.

#### Fanya

Count against paper ·  
photograph damage on the  
bench · pre-check the queue  
· photograph every handover  
· flag problems.

Hesabu kwa karatasi · piga  
picha ya uharibifu hapo mezani  
· kagua foleni mapema · piga  
picha kila makabidhiano · ripoti  
matatizo.

## NEVER KAMWE

### Don't

#### Usifanye

Release without a note · hand  
over part of a consignment ·  
mark missing cargo delivered  
· quote a price · share your  
account.

Usikabidhi bila hati · usikabidhi  
sehemu ya mzigo · usiweke  
alama umekabidhiwa mzigo  
uliopotea · usitaje bei ·  
usishirikishe akaunti.

## REMEMBER KUMBUKA

### The rule

#### Kanuni

You hold the cargo, not the  
money. That is why you can  
be straightforward with every  
customer at the counter.

Wewe unashikilia mzigo, siyo  
pesa. Ndiyo maana unaweza  
kuwa mnyoofu kwa kila mteja  
kaunta.

IF YOU REMEMBER ONE SENTENCE UKIKUMBUKA SENTENSI MOJA

Count it against paper, photograph it at the moment, and never hand over part of anything.

Hesabu kwa karatasi, piga picha wakati huo huo, na usikabidhi kamwe sehemu ya mzigo wowote.
